The TRAFFIC AND PARKING ADVISORY COMMITTEE (TPAC)

TPAC is a committee appointed by the Town Council to study traffic and parking issues and concerns and to advise the Town Council on solutions and policies. TPAC is made up of Township employees with parking/traffic expertise and volunteers who are residents and business owners with a strong interest in parking and traffic. TPAC bases its decisions on past experience; local, state and national recommendations and regulations; safety, environmental and economic development concerns; and common sense. TPAC issues recommendations to the Town Council, and the Town Council is the body that ultimately rules on any parking and traffic changes. Public safety concerns, as determined by the Montclair Police Department, may dictate parking and traffic rules at any time.

FOR TPAC USE ONLY
